Visience

A partnership proposal.

Real estate marketing, from the first post to the last apartment sold.

You build well. We make sure the work is seen by the people who are actually looking for an apartment: the brand, the website, the campaigns, and one single place where every lead lands.

8,200+	12 years	9	120+
REAL ESTATE LEADS	IN THE WORK	PROPERTY PROJECTS	PROJECTS DELIVERED

01	**One partner**	Brand, website, campaigns, content and leads under one roof. One person to call, not five firms pointing at each other.
02	**Reporting you can read**	You see what is working and where each buyer came from. Decisions on data, not on guesses.
03	**No hidden prices**	Every price is published on visience.ro, service by service. No surprises on the invoice.
04	**A personal answer**	We stay involved in the project directly. You do not get handed to a junior after signing.

Vlad Roman
Cătălin Prisecariu

We have been doing marketing and design for 12 years, and in property we have worked directly with developers, on real developments: **Cameo Residence, Evergreen Towers, Grand Beetle, Alfa Park and Picolina**. We stay personally involved in every project, and you deal with us directly.

contact@visience.ro · +40 771 486 499 · visience.ro

Everything a residential development needs to sell, in one place.

You should not have to work with one firm for design, another for the site, another for campaigns and a fourth for social media. We take the whole chain, and at the end you also get a **CRM holding every lead**, which your sales team works from.

Presence	Visibility	Capture	Leads	Sale
Brand, website and social media	Google and Meta campaigns, SEO	Offer pages and forms	All in one CRM	Reports and automation

01	**Branding for the development**	First a well-chosen company name, then a development name to match. People remember you, so on the next project you start with recognition rather than from zero. Logo, palette, brand book, all of it consistent.
02	**Website and apartment pages**	A site that is fast on a phone, with a dedicated page for each apartment type: floor plans, renders, specification, price and its own form.
03	**Google and Meta campaigns**	Lead generation through Search, Display, YouTube, Facebook and Instagram, targeted by area and by real buying intent.
04	**SEO and Google Maps**	The site catches the organic searches for your area, and the Google Business profile brings calls straight off the map.
05	**Visual production**	We coordinate 3D renders, site photography, drone video and a 360 virtual tour. Content that sells the way of living, not just the building.
06	**CRM and the availability grid**	Every lead in one place, with a status on each buyer and an account for each agent. Plus the availability grid on the site, where the buyer sees in real time what is free, what is reserved and what has sold.

Every lead
in one place.

Leads on a development rarely get lost because there are few of them. They get lost because they are scattered: some in email, some on WhatsApp, some by phone, some on Facebook. We pull them all into one system, with an instant notification to sales.

CRM included, tested and proven | **The availability grid, live on the site**

Website form	Instant notification to sales
Google Ads	A separate account for each agent
Facebook and Instagram	A status on each buyer
WhatsApp and phone	Monthly performance report

CRM included — ONE DASHBOARD

NEW | CONTACTED | VIEWING | OFFER | RESERVED | SOLD

01 **The availability grid, live on the site**

Each apartment is marked available, reserved or sold, and the grid updates in real time. The buyer sees straight away what is left, and you stop answering the same question ten times.

02 **See where each buyer came from**

You see which advertising channel brings actual sales, not just completed forms.

03 **It plugs into your sales team**

It can also connect to your partner agency, with lead handover and separate measurement per channel.

Real experience in property.

We are not learning the trade on your project. We have already taken residential developments and house schemes from launch to sold, with the brand, the website, the campaigns and the content that bring buyers in.

Cameo Residence
Logo, website with a page per apartment, social media and Meta campaigns.

Vlaicu87
A house scheme with its own park. Development branding and website.

Evergreen Towers
Website, online presence and lead generation campaigns.

Lapis Residence
Meta campaigns for selling the apartments.

Grand Beetle Residence
Identity, website and digital presence for a new development.

Alfa Park Residence
Website and digital marketing for selling the units.

Picolina Bucium Residence
Houses and apartment blocks: online presence and sales material.

Armur Design
A residential developer, with projects such as Cameo Residence.

4Biz Properties
Commercial property consultancy. Website, identity and campaigns.

Results, not promises.

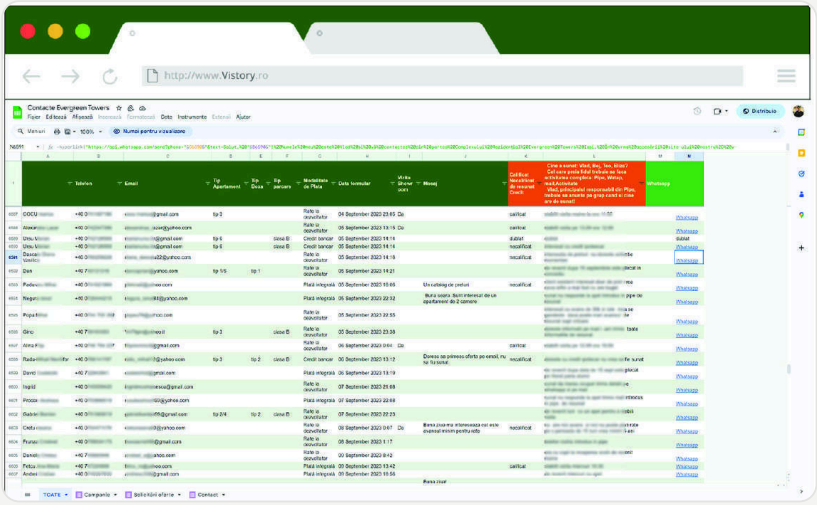

The numbers come from campaigns we ran ourselves, end to end: the offer page, the Google and Meta campaigns, the leads collected into one sheet and handed to the sales team.

EVERGREEN TOWERS

evergreentowers.ro/oferta

600+
leads
in 5 months

10
houses at €350,000
sold in 5 months

The page that brings the leads.

The campaign takes people to one place, and that is where everything is decided. The page below is the one that brought the 600 leads for Armur Design. It has exactly as many sections as it takes to answer every question, in the order the questions come up.

The opening

The name of the development, the location and the four arguments that matter. In three seconds someone knows whether this is for them.

Concept

What kind of home this is and who it is for. This is where it stops looking like a portal listing.

The enquiry button

The same request repeats all the way down the page, so nobody has to hunt for where to leave their details.

Details and floor plans

Areas, layout, floor plan. What everyone asks on the first phone call.

Materials and specification

Structure, façade, services, finishes. The section that filters out the wrong leads and convinces the serious ones.

Location on the map

Real distances to schools, shops and the centre.

Contact form

On the same page, short, with the details going straight into the CRM.

How we work, from brief to the first leads.

Every stage has its deliverables and you always know where we are and what comes next. We set the pace against your build programme.

01

Analysis and brief

We get to know the development, the audience and the strong points. We look at the local competition and at what already works in the market.

02

Strategy and concept

We settle the message, the positioning and the site structure. We decide which campaigns start first and with what offer.

03

Branding, if it is needed

Logo, palette, brand book. An identity applied consistently on the site, in print, on social and on the site hoardings.

04

Website and apartment pages

Design, build, copy, measurement. Launch with every page complete and ready for search.

05

Campaign setup

We configure Google Ads, Meta Ads and conversion tracking. We start with test budgets, to see which message and which area work.

06

Monthly optimisation

A monthly report and continuous optimisation. We adjust the ads weekly and the pages monthly.

What it costs, service by service.

You pay only for what you need. The prices are the same as on visience.ro, a guide that is confirmed after a brief. The services on this page are paid once.

Before launch

The numbers for the area and the plan, before a cent goes on advertising.

Area analysis — **€800**
The competing developments, online demand and the buyer profile, in a written report. Deducted from the brand and website if we launch together.

Strategy and campaign plan — **€500**
For one development. Each additional development or phase: €250.

Brand

The development's name becomes a brand you can carry into the next project.

Logo — **€500**
An original logo, one round of revisions, every version for print and screen.

Branding Standard — **€1,200**
3 logo directions, palette, complete identity.

Branding Premium — **€2,500**
Full brand book, animated logo, material.

Presentation brochure — **€300**
5 pages. Each additional page: €15.

Graphic design and print — **€50 / hour**
Site hoardings, flyers, roll-ups.

Website

Fast on a phone, with a page for each apartment type.

Website Basic — **€750**
Up to 6 pages: overview, apartments, location, contact.

Website Standard — **€1,200**
Up to 10 pages, full on-page SEO.

Website Premium — **€2,500**
3 design directions, animation, copywriting.

Campaign offer page — **€500**
One page dedicated to the campaign, with its own form.

Website in more languages — **from €100**
The pages and forms translated.

CRM and the availability grid on the site — **included**
Every lead in one place and availability kept up to date.

Additional costs: domain €15 and hosting €85 a year.

What it costs to bring in buyers.

The services that bring leads month after month. Take them separately, depending on what you already have and what you need now.

Google and Meta campaigns

Priced per platform, whatever the number of campaigns on it.

Campaign management, per platform Google or Meta. Weekly optimisation, monthly report. 3 months minimum.	**€200 / month**
Campaign setup and conversion tracking Once. Free on a 12-month contract.	**€200**
Remarketing Ads to visitors who did not leave their details.	**€200**
Automation Automated email to people who did leave their details.	**€300 / sequence**

Content and visibility

So the development is found even when no ads are running.

Social media strategy Audience, 12-month calendar, brand voice.	**€300**
Social media, 8 posts Graphics, copy, scheduling.	**€200 / month**
Social media, 15 posts Plus stories and a monthly report.	**€450 / month**
SEO and Google Maps Organic visibility for the development's area. 6 months minimum.	**€600 / month**
Google Business profile and social accounts Created, verified and filled in.	**€300**
Newsletter Monthly campaigns to the list of interested buyers, with a report.	**€300 / month**
Photo, video, drone and 360 virtual tour We coordinate the photographer, the filming and the renders.	**on request**

After launch

The site kept in shape while the campaigns run.

Fixes and improvements on the site Speed, forms, new pages.	**€60 / hour**
Monthly maintenance Updates, backups, small changes.	**from €100 / month**

The advertising budget is not included. It goes straight into your own Google Ads and Meta accounts and stays entirely with them; we never handle it. For a mid-size development we recommend from **€1,500–€2,500 a month**.

The next development
to sell out could be yours.

Tell us about the project and we will tell you honestly whether and how we can help. No obligation, no pressure.

01 **Reply to this email** with a few details: where you are building, how many units and what you already have (site, brand, campaigns).

02 **Or go to visience.ro** and book a 30-minute call straight into the calendar, with a Google Meet link.
