Web Design & Digital Marketing

Iași, Romania

An agency that sells, not one that makes pretty websites.

We are a web design and digital marketing team based in Iași, Romania. We have been doing this for 12 years, and in that time we have delivered more than 120 projects for companies in Romania and abroad: manufacturing, construction, property, hospitality, medical, retail, services and education. We work just as well remotely, so distance is not a problem.

The difference a client actually feels is simple: **everything to do with your online presence is done in one place**, by the same people. The brand, the site, the ads and the system where the enquiries land all talk to each other, because we build all of them.

01	One partner	Brand, website, campaigns, content and the enquiries handled under one roof. One person to call, not five firms pointing at each other.
02	Reporting you can read	You see what is working and where each customer came from. Decisions on data, not on guesses.
03	No hidden prices	Every package and rate is published on visience.ro. No surprises on the invoice.
04	A personal answer	We stay involved in the project directly. You do not get handed to a junior after signing.

Vlad Roman
Cătălin Prisecariu

We have been doing marketing and design for 12 years, for small businesses and for companies with whole sales teams. We stay personally involved in every project: you hear from us directly and we work alongside you.

Everything a company needs to sell what it does.

You should not have to find a designer, a web developer, an ads person and a social media person separately. We take the whole chain, and the pieces work together because we build all of them.

Reports and automation

- | | | |
|----|----------------------------------|--|
| 01 | Branding and identity | A company name chosen properly and a logo people remember. Palette, typography, brand book, business card. When you launch the next product, you start with recognition rather than from zero. |
| 02 | Website and online store | Business websites, stores on WooCommerce or Shopify, listings and course platforms. Fast on a phone, easy to run, ready for search from the build. |
| 03 | Google and Meta campaigns | Ads on Search, Display, YouTube, Facebook and Instagram, plus Shopping for stores. Tuned to enquiries and real sales, not to numbers that look good on paper. |
| 04 | SEO and Google Maps | The site catches the organic searches in your field, and the Google Business profile brings calls straight off the map. Traffic that does not cost you on every click. |
| 05 | Social media and content | Strategy, content calendar, posts, stories and the back-and-forth with your audience. Plus influencer research, with real numbers before you pay anything. |
| 06 | Graphic design and print | Flyers, brochures, roll-ups, business cards, banners. Set up properly for print and coordinated with the identity online. |
| 07 | Software and automation | Web and mobile applications, integrations between systems, automation that takes the repetitive work off your team's desk. |

CRM included.

Most often, customers are lost not because there are few of them, but because the enquiries land scattered: some in email, some on WhatsApp, some by phone, some on Facebook. We pull them all into one system, with an account for each person on the team and an instant notification when a new enquiry arrives.

Tested and proven on real projects

No monthly subscription to another supplier

Form on the site

Google Ads

Facebook and Instagram

WhatsApp and phone

Online store and portals

Instant notification to the team

A separate account for each person

A status on every customer

Monthly performance report

One single dashboard

CONTACTED

QUOTED

NEGOTIATING

WON

CUSTOMER

01 Everyone has their own account

You see who picked up the enquiry, what they discussed with the customer and where it stands, without asking on the WhatsApp group.

02 See where each customer came from

And which advertising channel brings actual sales, not just completed forms.

03 Response time decides the sale

A customer called while they are still interested is far more likely to buy than one called two days later.

Every field sells differently.

From bespoke suits and restaurants to factories, clinics, transport, education and residential developments. Every field sells differently, and that shows in how we build the brand, the site and the campaigns.

L'ARTE su misura

Bespoke suits, Bucharest. Brand, website and presentation material for the showroom.

Armur Design

Residential developer. Brand, website, campaigns and brochures for the schemes.

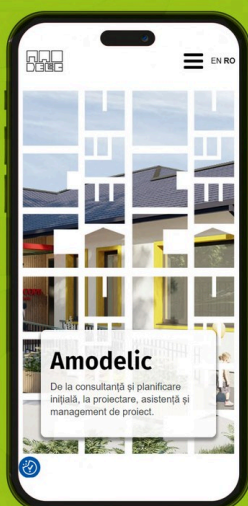

Casa Vatră

Restaurant and hotel in Rădăuți. Website with the menu, the location and bookings.

From the first conversation to the first enquiries.

A plan with clear dates and deliverables at every stage. You always know where we are and what comes next, with no surprises and without chasing us.

-
- | | | |
|----|---|----------|
| 01 | Analysis and brief
We get to know the business, the audience and what sets you apart. We look at the competition and at what already works in your field. | 2-3 days |
|----|---|----------|
-
- | | | |
|----|--|--------|
| 02 | Strategy and concept
We settle the message, the positioning and the site structure. We decide what starts first and with what offer. | 1 week |
|----|--|--------|
-
- | | | |
|----|---|-----------|
| 03 | Branding, if it is needed
Logo, palette, brand book. An identity applied consistently on the site, in print, on social and on the sales material. | 2-3 weeks |
|----|---|-----------|
-
- | | | |
|----|--|-----------|
| 04 | Website or store
Design, build, copy, measurement and the CRM. Launch with every page complete and ready for search. | 4-6 weeks |
|----|--|-----------|
-
- | | | |
|----|--|--------|
| 05 | Campaign setup
We configure Google Ads, Meta Ads and conversion tracking. We start with test budgets over two weeks. | 1 week |
|----|--|--------|
-
- | | | |
|----|--|---------|
| 06 | Monthly optimisation
A monthly report and continuous optimisation. We adjust the ads weekly and the pages monthly, against what actually brings customers. | Ongoing |
|----|--|---------|

Already have a website?

We work with what you have.

You do not have to throw away what you have built. We can start from the existing site, fix it, reshape it and connect it to the campaigns, so it starts bringing in enquiries worth having: people who genuinely want what you sell and are close to deciding, not just curious.

01	Speed and how it feels on a phone	Most customers search from a phone. A slow or confusing site loses enquiries you have already paid for with ad money. We make it fast and clear.
02	Service pages and forms	We add dedicated pages for each service or product, with the benefits, the price and a short form people actually fill in. This is where enquiries are won or lost.
03	Conversion tracking done right	We set up conversion events on forms, phone calls and WhatsApp. Without measurement, campaigns run blind.
04	Message and positioning	We rewrite the copy so it speaks the customer's language: what you solve, for whom and why you. A visitor who is convinced is far readier to buy.

We start with a free check of your site

We look at speed, structure, message and measurement, then tell you honestly what is worth fixing, what is worth rebuilding and what brings customers fastest. Nothing to sign.

Complete packages.

If you would rather not pick service by service, take a package. Each one starts from what you already have and covers the whole chain, from the identity through to the first enquiries.

Start

For businesses starting out, that need a clean presence and one place where the enquiries land.

- | | | | |
|--------------------------------|-------|-----------------------------|----------|
| – Logo Basic | \$600 | – Online presence tuned up | \$350 |
| – Website Basic, up to 6 pages | \$870 | – CRM, form and measurement | included |

ONE-OFF COST

\$1,820

Standard

RECOMMENDED

For companies that want to sell steadily, not merely exist online. A complete identity, a site built for you and campaigns running.

- | | | | |
|------------------------------|---------|--|----------|
| – Branding Standard | \$1,400 | – Campaign setup and measurement | \$230 |
| – Website Standard, 10 pages | \$1,400 | – CRM, with an account for each person | included |

ONE-OFF COST

\$3,030

plus \$230 a month

Monthly: Google and Meta campaign management, any number of campaigns, with a monthly report — \$230 a month.

Premium

For companies with a sales team, that want the whole ecosystem covered and tuned every month.

- | | | | |
|--------------------|---------|---|----------|
| – Branding Premium | \$2,900 | – Campaign setup and measurement | \$230 |
| – Website Premium | \$2,900 | – CRM, with reports by source and by person | included |

ONE-OFF COST

\$6,030

plus \$1,450 a month

Monthly: Google and Meta campaign management \$230, Posts Standard \$520, full SEO strategy \$700 — \$1,450 a month.

Each package costs exactly what the services in it cost. They are the same prices as on the following pages and on visience.ro; we add nothing for taking them together. We grouped them only so you do not have to pick service by service. **If you already have a logo or a site**, we take it out of the package and its price comes off the total. **The advertising budget** is not included; it is paid straight to Google and Meta.

What it costs to build.

Published prices, the same as on visience.ro. One-off costs, paid once on delivery of the project.

Business website

WordPress, ready for search and easy to run.

One-page website **\$230**

Ready in 2 days, with domain and hosting

Website Basic **\$870**

Up to 6 pages, blog, gallery

Website Standard **\$1,400**

Full on-page SEO, 10 pages

Website Premium **\$2,900**

3 design directions, animation, copywriting

Website Advanced **on request**

Complex projects

Listings, property, car or course platform **\$1,400**

Its own system, filters, user profiles

Online store

WooCommerce, Shopify or PrestaShop, with payments and carriers connected.

Store Basic **\$1,160**

Online payments, cash on delivery, shipping

Store Standard **\$2,100**

Product suggestions, abandoned cart, 2 languages

Store Premium **\$4,060**

Original design, live chat, configurator

Branding and design

Logo in every format, for print and for screen.

Logo Basic **\$600**

An original logo, one round of revisions, versions

Branding Standard **\$1,400**

3 logo directions, complete identity

Branding Premium **\$2,900**

Brand book, animated logo, material

Graphic design and print **\$60/hr**

Flyers, brochures, roll-ups, banners

Additional costs: domain \$15 and hosting \$100 a year; on the one-page website both are included for the first year.

Included in any site, at no cost: the CRM, the form, conversion tracking and baseline SEO.

Prices are a guide and are confirmed after a short brief.

What it costs to bring customers.

Monthly services that bring customers in and keep them close. Take them separately or together, depending on where you are now.

Google and Meta Ads

Campaigns aimed at enquiries and real sales.

Campaign management **\$230/mo**

Any number of campaigns, 3 months minimum

Campaign setup and measurement **\$230**

Free on a 12-month contract

Remarketing **\$230**

Bring back the visitors who did not buy

Automation **\$350**

Per sequence of automated emails

Google Shopping **\$120**

Product feed and campaign

Social media

Content, posting and the back-and-forth with your audience.

Social media strategy **\$350**

Audience, 12-month calendar, brand voice

Posts Start **\$230/mo**

8 posts a month

Posts Standard **\$520/mo**

15 posts, stories, report

Full SMM **\$810/mo**

30 posts and full management

Influencer research **\$120**

List, rates, audience statistics

2-year marketing strategy **\$1,160**

SWOT, buyer personas, calendar, KPIs

Online presence tuned up **\$350**

Google Business, social accounts

Campaigns and loyalty **\$600**

Competitions, events, points programmes

SEO, content and software

Visibility in Google and the systems behind it.

Full SEO strategy **\$700/mo**

On-page and off-page, 6 months minimum

Technical SEO **\$70/hr**

Indexing, speed, structured data

E-commerce SEO **from \$1,740**

Products, categories, schema

Backlink article **\$460**

800-1000 words, ready to publish

Email marketing **\$350/mo**

Monthly campaigns, design and report

Software and automation **\$70/hr**

Applications, integrations, extended CRM

Monthly maintenance **from \$120/mo**

Updates, backups, small changes

The advertising budget for Google and Meta is paid straight to the platforms and is not part of the management fee. We recommend at least \$600 a month for a healthy start.

Tell us what you sell. We will tell you how it sells better.

Whether you are starting from nothing or already have a site that brings no enquiries, the first step is a short conversation. We tell you honestly what is worth doing, in what order and what it costs.

-
- 01** **Reply to this email** with a few details: what you sell, to whom, and what you already have (site, brand, campaigns).
-
- 02** **Or go to visience.ro** and book a 30-minute call straight from the calendar, with a Google Meet link.
