

A partnership proposal.

Real estate marketing, from the first post to the last apartment sold.

You build well. We make sure the work is seen by the people who are actually looking for an apartment: the brand, the website, the campaigns, and one single place where every lead lands.

PROJECTS DELIVERED

- | | | |
|----|-------------------------------|---|
| 01 | One partner | Brand, website, campaigns, content and leads under one roof. One person to call, not five firms pointing at each other. |
| 02 | Reporting you can read | You see what is working and where each buyer came from. Decisions on data, not on guesses. |
| 03 | No hidden prices | Every package and rate is published on visience.ro. No surprises on the invoice. |
| 04 | A personal answer | We stay involved in the project directly. You do not get handed to a junior after signing. |

Vlad Roman
Cătălin Prisecariu

We have been doing marketing and design for 12 years, and in property we have worked directly with developers, on real developments: **Cameo Residence, Evergreen Towers, Grand Beetle, Alfa Park and Picolina**. We stay personally involved in every project, and you deal with us directly.

contact@visience.ro

visience.ro

Everything a residential development needs to sell, in one place.

You should not have to work with one firm for design, another for the site, another for campaigns and a fourth for social media. We take the whole chain, and at the end you also get a **CRM holding every lead**, which your sales team works from.

Presence

Reports and automation

01 Branding for the development

First a well-chosen company name, then a development name to match. People remember you, so on the next project you start with recognition rather than from zero. Logo, palette, brand book, all of it consistent.

02 Website and apartment pages

A site that is fast on a phone, with a dedicated page for each apartment type: floor plans, renders, specification, price and its own form.

03 Google and Meta campaigns

Lead generation through Search, Display, YouTube, Facebook and Instagram, targeted by area and by real buying intent.

04 SEO and Google Maps

The site catches the organic searches for your area, and the Google Business profile brings calls straight off the map.

05 Visual production

We coordinate 3D renders, site photography, drone video and a 360 virtual tour. Content that sells the way of living, not just the building.

06 CRM and the availability grid

Every lead in one place, with a status on each buyer and an account for each agent. Plus the availability grid on the site, where the buyer sees in real time what is free, what is reserved and what has sold.

Every lead in one place.

Leads on a development rarely get lost because there are few of them. They get lost because they are scattered: some in email, some on WhatsApp, some by phone, some on Facebook. We pull them all into one system, with an instant notification to sales.

SOLD

01 The availability grid, live on the site

Each apartment is marked available, reserved or sold, and the grid updates in real time. The buyer sees straight away what is left, and you stop answering the same question ten times.

02 See where each buyer came from

You see which advertising channel brings actual sales, not just completed forms.

03 It plugs into your sales team

It can also connect to your partner agency, with lead handover and separate measurement per channel.

Real experience in property.

We are not learning the trade on your project. We have already taken residential developments and house schemes from launch to sold, with the brand, the website, the campaigns and the content that bring buyers in.

Cameo Residence

Logo, website with a page per apartment, social media and Meta campaigns.

Vlaicu87

A house scheme with its own park. Development branding and website.

Evergreen Towers

Website, online presence and lead generation campaigns.

Lapis Residence

Meta campaigns for selling the apartments.

Grand Beetle Residence

Identity, website and digital presence for a new development.

Alfa Park Residence

Website and digital marketing for selling the units.

Picolina Bucium Residence

Houses and apartment blocks: online presence and sales material.

Armur Design

A residential developer, with projects such as Cameo Residence.

4Biz Properties

Commercial property consultancy. Website, identity and campaigns.

Results, not promises.

The numbers come from campaigns we ran ourselves, end to end: the offer page, the Google and Meta campaigns, the leads collected into one sheet and handed to the sales team.

The page that brings the leads.

The campaign takes people to one place, and that is where everything is decided. The page below is the one that brought the 600 leads for Armur Design. It has exactly as many sections as it takes to answer every question, in the order the questions come up.

The opening

The name of the development, the location and the four arguments that matter. In three seconds someone knows whether this is for them.

Concept

What kind of home this is and who it is for. This is where it stops looking like a portal listing.

The enquiry button

The same request repeats all the way down the page, so nobody has to hunt for where to leave their details.

Details and floor plans

Areas, layout, floor plan. What everyone asks on the first phone call.

Materials and specification

Structure, façade, services, finishes. The section that filters out the wrong leads and convinces the serious ones.

Location on the map

Real distances to schools, shops and the centre.

Contact form

On the same page, short, with the details going straight into the CRM.

How we work, from brief to the first leads.

Every stage has its deliverables and you always know where we are and what comes next. We set the pace against your build programme.

01**Analysis and brief**

We get to know the development, the audience and the strong points. We look at the local competition and at what already works in the market.

02**Strategy and concept**

We settle the message, the positioning and the site structure. We decide which campaigns start first and with what offer.

03**Branding, if it is needed**

Logo, palette, brand book. An identity applied consistently on the site, in print, on social and on the site hoardings.

04**Website and apartment pages**

Design, build, copy, measurement. Launch with every page complete and ready for search.

05**Campaign setup**

We configure Google Ads, Meta Ads and conversion tracking. We start with test budgets, to see which message and which area work.

06**Monthly optimisation**

A monthly report and continuous optimisation. We adjust the ads weekly and the pages monthly.

Already have a site?

We work with what you have.

You do not have to throw away what you have built. We start from the existing site: we fix it, restructure it and connect it to the campaigns, so it starts bringing quality leads, meaning people who actually want an apartment and are close to deciding, not just the curious.

01

Speed and the mobile experience

Most buyers search on their phone. A slow or confusing site loses leads you have already paid for with advertising money. We make it fast and clear.

02

Apartment pages and forms

We add a dedicated page for each apartment type, with floor plans, price and a simple form people actually fill in. This is where leads are won or lost.

03

Conversion tracking done properly

We set up conversion events on forms, phone and WhatsApp. Without measurement, campaigns run blind.

04

Message and positioning

We rewrite the copy so it speaks the buyer's language: the area, the way of living, the payment options. A visitor who is convinced is readier to buy.

We start with a free check of your site

We look at speed, structure, message and measurement, then tell you honestly what is worth fixing, what is worth rebuilding and what brings leads fastest. Nothing to sign.

Published prices, no surprises.

For a development started from scratch: brand, website and campaigns. Prices are a guide, settled after a brief. **The figures below are our fee for the work.** The budget that buys the advertising space is paid separately, straight to Google and Meta.

Start

For small developments, under 30 units. Everything you need to start selling, without a large monthly retainer.

- Full branding: 3 logo directions, palette, brand book
- A 10–15 page website, ready for search
- A dedicated page for each apartment type
- CRM included and the availability grid on the site
- Campaign setup and conversion tracking
- Analytics, Search Console and Google Business profile

ONE-OFF COST

\$4,060

plus \$230 a month
for campaigns

Monthly: Google and Meta campaign management, any number of campaigns, with a monthly report.

Standard

RECOMMENDED

For mid-size schemes, 30–80 units, with clear sales targets.

- Premium branding: full brand book and animated logo
- Premium website: 3 design directions, animation, copywriting
- Pages with plans and prices for each apartment type
- CRM and the availability grid
- Campaign setup and conversion tracking
- Strategy and campaign plan across the whole sales period
- Remarketing and automation

ONE-OFF COST

\$7,540

plus \$1,740 a month
for campaigns

Monthly: Google and Meta campaign management, 8 social media posts, two hours of fixes and improvements on the site, and a monthly report.

Full ecosystem

For large developments, over 80 units, or developers running several projects.

- Everything in Standard, plus:
- Photo, video and 3D render production coordinated
- 360 virtual tour of the apartments
- An apartment configurator, with filtering
- Website in two languages
- A complete pack of print material

ONE-OFF COST

\$13,920

plus \$5,220 a month
for campaigns

Monthly: everything in Standard, plus TikTok campaigns, SEO and Google Maps, extended social media, an automated newsletter, monthly content shot on site and a dedicated contact person.

The advertising budget is not included in the figures above. The monthly fee covers our work: building the campaigns, the copy, the creative, the optimisation and the report. The money that buys the impressions is paid straight to Google and Meta, from your own card, and stays entirely with them. For a mid-size development we recommend from **\$1,740–\$2,900 a month**. Item-by-item rates are on the next page.

Already have a site?

Pay only for the campaigns.

We rebuild nothing. We start the campaigns on your site and keep it in shape while the ads run, so the advertising money is not lost on a page that does not answer the buyer's questions.

Campaigns managed

RECOMMENDED

Everything the ads need to work, item by item.

- | | | | |
|--|---------------|--|----------|
| - Google and Meta campaign management | \$230 / month | - Weekly campaign optimisation | included |
| - Fixes and improvements on the site, 4 hours × \$70 | \$280 / month | - Conversion tracking and a monthly report | included |

TOTAL

\$510

a month,
plus the setup

Setting up the campaigns and the tracking is done once, at the start, and costs \$230. On a 12-month contract it is free.

Or take only what you need The prices below are per item and combine any way you like.

Google and Meta campaign management	\$230 / month
One price a month, any number of campaigns.	
Campaign setup and conversion tracking	\$230
Once, before the first campaign. Free on a 12-month contract.	
Strategy and campaign plan	\$600
Once, for one development. Each additional development or phase: \$300.	
Remarketing	\$230
Ads to visitors who did not leave their details.	
Automation	\$350 / sequence
Automated email to people who did leave their details.	
SEO and Google Maps	\$700 / month
Organic visibility for the development's area.	
Social media	\$230 / month
8 posts a month. With 15 posts: \$520.	
Fixes and improvements on the site	\$70 / hour
Speed, forms, new pages.	
A new offer page	\$600
One page dedicated to the campaign, with its own form.	
Area analysis	\$930
Before any package. Deducted from the launch package.	

These figures are our fee and do not include the advertising budget. The budget goes straight into your own Google Ads and Meta accounts and stays entirely with them; we never handle it.

The next development to sell out could be yours.

Tell us about the project and we will tell you honestly whether and how we can help. No obligation, no pressure.

-
- 01** **Reply to this email** with a few details: where you are building, how many units and what you already have (site, brand, campaigns).
-
- 02** **Or go to visience.ro** and book a 30-minute call straight into the calendar, with a Google Meet link.
