Web Design & Digital Marketing
Iași, Romania

An agency that sells, not one that makes pretty websites.

We are a web design and digital marketing team based in Iași, Romania. We have been doing this for 12 years, and in that time we have delivered more than 120 projects for companies in Romania and abroad: manufacturing, construction, property, hospitality, medical, retail, services and education. We work just as well remotely, so distance is not a problem.

The difference a client actually feels is simple: **everything to do with your online presence is done in one place**, by the same people. The brand, the site, the ads and the system where the enquiries land all talk to each other, because we build all of them.

01	**One partner**	Brand, website, campaigns, content and the enquiries handled under one roof. One person to call, not five firms pointing at each other.
02	**Reporting you can read**	You see what is working and where each customer came from. Decisions on data, not on guesses.
03	**No hidden prices**	Every price is published on visience.ro, service by service. No surprises on the invoice.
04	**A personal answer**	We stay involved in the project directly. You do not get handed to a junior after signing.

Vlad Roman
Cătălin Prisecariu

We have been doing marketing and design for 12 years, for small businesses and for companies with whole sales teams. We stay personally involved in every project: you hear from us directly and we work alongside you.

Everything a company needs to sell what it does.

You should not have to find a designer, a web developer, an ads person and a social media person separately. We take the whole chain, and the pieces work together because we build all of them.

Presence	Visibility	Capture	Enquiries	Sale
Brand and website	Google, Meta, SEO	Offer pages and forms	All in one CRM	Reports and automation

01	**Branding and identity**	A company name chosen properly and a logo people remember. Palette, typography, brand book, business card. When you launch the next product, you start with recognition rather than from zero.
02	**Website and online store**	Business websites, stores on WooCommerce or Shopify, listings and course platforms. Fast on a phone, easy to run, ready for search from the build.
03	**Google and Meta campaigns**	Ads on Search, Display, YouTube, Facebook and Instagram, plus Shopping for stores. Tuned to enquiries and real sales, not to numbers that look good on paper.
04	**SEO and Google Maps**	The site catches the organic searches in your field, and the Google Business profile brings calls straight off the map. Traffic that does not cost you on every click.
05	**Social media and content**	Strategy, content calendar, posts, stories and the back-and-forth with your audience. Plus influencer research, with real numbers before you pay anything.
06	**Graphic design and print**	Flyers, brochures, roll-ups, business cards, banners. Set up properly for print and coordinated with the identity online.
07	**Software and automation**	Web and mobile applications, integrations between systems, automation that takes the repetitive work off your team's desk.

CRM included.

Most often, customers are lost not because there are few of them, but because the enquiries land scattered: some in email, some on WhatsApp, some by phone, some on Facebook. We pull them all into one system, with an account for each person on the team and an instant notification when a new enquiry arrives.

Tested and proven on real projects **No monthly subscription to another supplier**

- Form on the site
- Google Ads
- Facebook and Instagram
- WhatsApp and phone
- Online store and portals

›

- Instant notification to the team
- A separate account for each person
- A status on every customer
- Monthly performance report

One single dashboard

NEW | CONTACTED | QUOTED | NEGOTIATING | WON | CUSTOMER

01	**Everyone has their own account**	You see who picked up the enquiry, what they discussed with the customer and where it stands, without asking on the WhatsApp group.
02	**See where each customer came from**	And which advertising channel brings actual sales, not just completed forms.
03	**Response time decides the sale**	A customer called while they are still interested is far more likely to buy than one called two days later.

Every field sells differently.

From bespoke suits and restaurants to factories, clinics, transport, education and residential developments. Every field sells differently, and that shows in how we build the brand, the site and the campaigns.

L'ARTE su misura

Bespoke suits, Bucharest. Brand, website and presentation material for the showroom.

Armur Design

Residential developer. Brand, website, campaigns and brochures for the schemes.

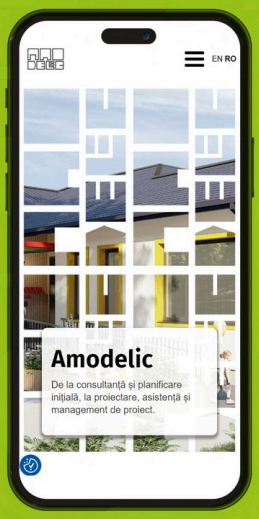

Casa Vatră

Restaurant and hotel in Rădăuți. Website with the menu, the location and bookings.

From the first conversation to the first enquiries.

A plan with clear dates and deliverables at every stage. You always know where we are and what comes next, with no surprises and without chasing us.

01 **Analysis and brief** — 2–3 days
We get to know the business, the audience and what sets you apart. We look at the competition and at what already works in your field.

02 **Strategy and concept** — 1 week
We settle the message, the positioning and the site structure. We decide what starts first and with what offer.

03 **Branding, if it is needed** — 2–3 weeks
Logo, palette, brand book. An identity applied consistently on the site, in print, on social and on the sales material.

04 **Website or store** — 4–6 weeks
Design, build, copy, measurement and the CRM. Launch with every page complete and ready for search.

05 **Campaign setup** — 1 week
We configure Google Ads, Meta Ads and conversion tracking. We start with test budgets over two weeks.

06 **Monthly optimisation** — Ongoing
A monthly report and continuous optimisation. We adjust the ads weekly and the pages monthly, against what actually brings customers.

What it costs to build.

Published prices, the same as on visience.ro. One-off costs, paid once on delivery of the project.

Business website

WordPress, ready for search and easy to run.

Website Basic Up to 6 pages, blog, gallery	**€750**
Website Standard Full on-page SEO, 10 pages	**€1,200**
Website Premium 3 design directions, animation, copywriting	**€2,500**
Website Advanced Complex projects	**on request**
Listings, property, car or course platform Its own system, filters, user profiles	**€1,200**

Online store

WooCommerce, Shopify or PrestaShop, with payments and carriers connected.

Store Basic Online payments, cash on delivery, shipping	**€1,000**
Store Standard Product suggestions, abandoned cart, 2 languages	**€1,800**
Store Premium Original design, live chat, configurator	**€3,500**

Branding and design

Logo in every format, for print and for screen.

Logo Basic An original logo, one round of revisions, versions	**€500**
Branding Standard 3 logo directions, complete identity	**€1,200**
Branding Premium Brand book, animated logo, material	**€2,500**
Graphic design and print Flyers, brochures, roll-ups, banners	**€50/hr**

Additional costs: domain €15 and hosting €85 a year.
Included in any site, at no cost: the CRM, the form, conversion tracking and baseline SEO.
Prices are a guide and are confirmed after a short brief.

What it costs to bring customers.

Monthly services that bring customers in and keep them close. Take them separately or together, depending on where you are now.

Google and Meta Ads

Campaigns aimed at enquiries and real sales.

Campaign management, per platform Google or Meta, any number of campaigns, 3 months minimum	**€200/mo**
Campaign setup and measurement Free on a 12-month contract	**€200**
Remarketing Bring back the visitors who did not buy	**€200**
Automation Per sequence of automated emails	**€300**
Google Shopping Product feed and campaign	**€100**

SEO, content and software

Visibility in Google and the systems behind it.

Full SEO strategy On-page and off-page, 6 months minimum	**€600/mo**
Technical SEO Indexing, speed, structured data	**€60/hr**
E-commerce SEO Products, categories, schema	**from €1,500**
Backlink article 800–1000 words, ready to publish	**€400**
Email marketing Monthly campaigns, design and report	**€300/mo**
Software and automation Applications, integrations, extended CRM	**€60/hr**
Monthly maintenance Updates, backups, small changes	**from €100/mo**

Social media

Content, posting and the back-and-forth with your audience.

Social media strategy Audience, 12-month calendar, brand voice	**€300**
Posts Start 8 posts a month	**€200/mo**
Posts Standard 15 posts, stories, report	**€450/mo**
Full SMM 30 posts and full management	**€700/mo**
Influencer research List, rates, audience statistics	**€100**
2-year marketing strategy SWOT, buyer personas, calendar, KPIs	**€1,000**
Online presence tuned up Google Business, social accounts	**€300**
Campaigns and loyalty Competitions, events, points programmes	**€500**

The advertising budget for Google and Meta is paid straight to the platforms and is not part of the management fee. We recommend at least €500 a month for a healthy start.

Tell us what you sell.
We will tell you how it sells better.

Whether you are starting from nothing or already have a site that brings no enquiries, the first step is a short conversation. We tell you honestly what is worth doing, in what order and what it costs.

01 **Reply to this email** with a few details: what you sell, to whom, and what you already have (site, brand, campaigns).

02 **Or go to visience.ro** and book a 30-minute call straight from the calendar, with a Google Meet link.
